Douala

Cameroonian

PROFILE

Highly motivated and detail oriented aspiring Cybersecurity professional with a strong academic foundation in computer systems, networking and information security principles. Passionate about protecting digital assets, solving complex security challenges, and promoting safe technology use. Proven leadership skills through school projects and extracurricular activities, combine with a commitment to continuous learning and innovation. Seeking to pursue undergraduate studies in Cybersecurity, with the goal of contributing to global cyber defense strategies and developing cutting edge solutions to emerging threats.

PROJECT

Network Security basic simulation

07/2022 - 08/2022

Douala

Designed a small scaled computer network in a virtual lab and configured basic firewall settings to block unauthorized access.

- Gained foundational skills in network setup, security configuration, and troubleshooting.

Personal Portfolio website(self initiated)

01/2023 - 06/2023

Douala

Developed a personal website using HTML, CSS, and basic JavaScript to showcase academic achievements and tech skills

- Improved web development skills and created a professional online presence for future opportunities.

Computer Troubleshooting and Repair assistance (community Service)

02/2023 - Present

Douala

Helped students and local residents fix hardware and software issues, including virus removal and software installation.

- Strengthened problem solving skills while making technology more accessible to the community.

Python password generator script

01/2025 - 2025

Douala

Create a simple python scripts that generate strong, random password to promote better online security.

- Learned basic python programming and reinforced understanding of password security best practices.

COURSES

Introduction to Networking (Cisco Networking Academy)

Python Programing for beginners (Udemy)

Introduction to cybersecurity (YouTube)

EDUCATION

GCE Ordinary Level

GBHS Lycee Mabanda

09/2018 - 06/2019

GCE Advance Level

Ceget Bonaberi

09/2021 - 06/2022

SKILLS

Familiarity with Operating Systems like windows and Linux

Computer hardware and software Trouble shooting

Basic Programming (HTML5 and CSS3)

Basic Networking and Cybersecurity concept

Problem solving and analytical thinking

Time Management

Communication and presentation

Time Management

Adaptability and Quick Learning

EXPERIENCE

Community tech support volunteer

Community of Douala

01/2024 - Present

Douala

Helps residents troubleshoot hardware and software issues, install antivirus programs, and setup security accounts.

- Improved understanding of real world tech issues while building communication and customer service skills.

STENGTHS

Keen attention to details

Even a small overlooked setting can cause a major security breach. Attention to details ensures accuracy in configurations, coding, and threat analysis.

Fast Learner with the ability to adapt to a new technology

Technology changes quickly, and cyber threats evolve daily. Being a quick learner ensures the ability tot master new tools, programing languages, and defense techniques rapidly

Excellent Teamwork and Collaboration abilities

Security operations involves working with IT teams, management, and sometimes law enforcement. Collaboration skills ensures smooth communication and joint problem solving.

Creative Thinking and innovation in finding Solution

Hackers often think outside the box so defenders must do same. Creativity helps in designing unique defenses and anticipating unconventional attack methods.

HOBBY

Sports

Reading tech blogs and cybersecurity articles

Traveling

Surfing the internet

Solving logic puzzles

Community Volunteering

EXPERIENCE

Cyber safety awareness campaign

Community of Douala

06/2024 - 08/2025

Douala

Collaborated with peers to design posters, presentations, and short talks on safe internet practice.

- Raised awareness among over 200 fellow students on data protection and online threat prevention.

LANGUAGES

English Language

Proficient

French Language

Proficient

KEY ACHIEVEMENTS

Top performer in Computer Science

Consistently achieved high grades in computing, networking, and digital literacy courses. Built a strong academic foundation for advance studies in cybersecurity and information systems.

Leadership Role - ICT Club

Coordinated workshops and peer-to-peer training on computer skills and online safety. Improve technology awareness amongst student and strengthened teamwork abilities.

Participating in coding and problem solving challenges

Engaged in hackathons and coding competitions to develop programming and critical thinking skills. Enhanced problem solving speed and adaptability under time pressure skills in cyber security.
